YOUNG WOMEN NOT PERMITTED BAIL

They Are Held Pending Outcome of W. E. D. Stokes's Injuries.

FEW DEVELOPMENTS

Wounded Man Sticks to Story That It Was Case of Blackmail.

New York, June 8.—Developments in the case of W. E. D. Stokes, the millionaire hotel proprietor, real estate owner and horse breeder, who was shot last night by two young women, probably will be held up for several days. The wounded man is in no immediate danger, it was said at the Roosevelt hospital to-night, but his condition was regarded as serious until it could be determined if blood-poisoning would set in. Barring such ill luck, Mr. Stokes will be out of the hospital in about ten days, but pending the outcome of his injuries Lillian Graham and Ethel Conrad, the young women in the case, will be held without bail.

The explanation made in Mr. Stokes's behalf, alleging that he was shot because he refused to sign an agreement to pay \$25,000 for the return of letters held by the young women, was amplified to-day by Police Inspector Russell. He said Mr. Stokes had told detectives that Miss Graham called on him at the Hotel Ansonia a week ago and demanded \$500 for some letters. When Mr. Stokes replied that he would not pay a nickel for the letters, it is alleged she drew a phial from her pocket and declared she would kill herself. Stokes, however, wrenched the bottle from her.

The original allegation that \$25,000 had been demanded for the letters was positively denied by Miss Graham, who declared that there was no question or mention of money at all. She declared there was no chance for argument when Mr. Stokes appeared at the apartment last night, but that he immediately seized her by the throat and demanded the letters.

At Roosevelt hospital to-night a bulletin was issued saying that Mr. Stokes was resting comfortably, and that the bullets had been removed from his body.

WORSTED TRUST IS WORST TRUST

Twists Long, Strangling Fingers Around Throat of American Consumer.

MURDOCK DENOUNCES IT

Tells Congress of Its Gross and Cruel Brutality in Fabric Field.

Washington, June 8.—An attack on the Democratic wool tariff bill, on the ground that it affords protection to the so-called Worsteds Trust, was made in the House to-day by Representative Victor Murdock, of Kansas. Mr. Murdock attacked the 10 per cent. duty on worsted cloths, which the bill contains, declaring that it meant immediate protection to the combination that controls the worsted output.

"I cannot see how a man here," said Mr. Murdock, "knowing the Worsteds Trust, knowing its gross and cruel brutality in the fabric field, can back it up while it continues to twist its long, strangling fingers around the throat of the American consumer. I cannot see for the life of me how any one in the American Congress can aid the Worsteds Trust by putting a tariff on worsted, either as a frankly avowed measure of protection or under the guise of a tariff for revenue."

Mr. Murdock said that the Worsteds Trust has so lowered the quality of goods that the consumer buys; that "clothing manufacturers have been ashamed to pass the fabrics on to the wearers. At the same time, he said, the cost of worsted goods has been increased."

"The Worsteds Trust has by stock manipulation," said Mr. Murdock, "paid out in eleven years on probably not over \$15,000,000 original investment, \$22,000,000 in dividends, and has built up besides an establishment carrying a capital of \$80,000,000, with a surplus of \$10,000,000 on top of that."

It has dominated its own field, manipulated successfully the field of its rival, the woolen trade and has twisted and turned the thumbscrews on the purchaser of fabrics, without stint, mercy or conscience. It has had the privilege of a joker in the raw wool classification, and of another joker in the duty on yarn and tops."

Republican Leader Mann opened the attack on the Democratic bill with a criticism of its effectiveness as a revenue producing measure.

"If this bill be examined from the standpoint of protection to the industries of the country, it is a failure," said Mr. Mann. "If it be examined from the standpoint merely of raising revenue, it is cruel and unjust. It will feed no children, it will give no pay to laborers, it will add nothing to the profit of capital in this country. It will not build up our manufacturers. It will abandon the wool industry to destruction."

Mr. Mann accused the Democrats in the House of following misinformation in their support of the bill.

Mr. Brantley, of Georgia, Democratic member of the Ways and Means Committee, supported the bill in a speech attacking protection principles.

Greatest Crop Ever Promised. Washington, June 8.—Promise that this year's wheat crop will be the largest ever produced in this country is given in the June crop report issued to-day by the Department of Agriculture. Figures by experts indicate a crop of approximately 743,781,357 bushels of wheat will be harvested in this country this summer and autumn, an increase of about 65,845,857 bushels over that garnered last year. Of winter wheat, the indicated yield is almost 450,000,000 bushels, and of spring wheat, 293,600,000 bushels. Professor S. C. Murray, acting chairman of the crop reporting board, commenting on the report, said:

"The acreage of spring wheat shows a total larger than any previous record, and nearly 9 per cent. greater than last year. On June 1 the crop was above the average in promise, the condition and acreage combined being such as to give hope for a yield of nearly 25 per cent. more than last year and nearly 17 per cent. more than the average for the last five years."

"May was unfavorable for winter wheat, but nevertheless, with the increased acreage, there probably will be between 3 and 4 per cent. more winter wheat produced than last year, and between 6 and 7 per cent. more than for the average of the last five years. Combining both spring and winter wheat, the indications point to a slightly larger yield per acre than was

Recent snapshot of Miss Conrad.

produced last year, and about the same yield per acre as during the last five years. This would make a total production of all wheat of 9.9 per cent. more than last year and 10.2 per cent. more than the average for the last five years.

ETHEL MCCORMICK TO WED.
Report New York Girl Is Engaged to Commodore Isaac E. Emerson.

Baltimore, Md., June 8.—Following a yachting party down the bay aboard Commodore Isaac E. Emerson's yacht Margaret, it is reported the capitalist on June 28 next, will marry Miss Ethel McCormick, of New York. The wedding, it is said, will take place quietly in Yonkers.

The report has it that Commodore Emerson and his bride will leave for Europe on an extended trip.

Mrs. McCormick was present on the yachting party yesterday, accompanied by her daughter.

Commodore Emerson's friendship for Mrs. McCormick dates from the time the Commodore was living in New York with his daughter, Mrs. McKim. Mrs. McCormick's husband was in poor health, and Emerson offered Mr. and Mrs. McCormick the use of his country estate, "Arcadia," in South Carolina. In the hope of restoring the patient's health, the offer was accepted but Mr. McCormick failed to recover.

It is understood that Commodore Emerson has chartered his yacht to another Baltimorean for the period of his absence in Europe.

June Crop Report. Washington, June 8.—The Department of Agriculture's June crop report, issued to-day, estimates the principal crops as follows:

Spring wheat—Acreage, 20,757,000, or 104.9 per cent. of 1910 acreage (19,778,000); condition June 1, 94.6, compared with 93.6, the ten-year average; indicated yield per acre 13.7 bushels, compared with 13.5, the fifteen-year average.

Winter wheat—Acreage, 31,367,000, or 106.6 per cent. of 1910 acreage (29,427,000); condition June 1, 80.4, compared with 81.6, the ten-year average; indicated yield per acre 15.3 bushels, compared with 15, the five-year average.

All wheat—Indicated yield per acre, 14.7 bushels, compared with 14.7, the five-year average.

Oats—Acreage, 35,250,000 of 95.9 per cent. of 1910 acreage (36,755,000); June 1 condition, 85.7, compared with 85.4, the ten-year average; indicated yield per acre, 27.7 bushels compared with 28.1, the five-year average.

Barley—Acreage, 7,023,000, or 97 per cent. of 1910 acreage (7,257,000); June 1 condition, 90.2, compared with 90.9, the ten-year average; indicated yield per acre 24.5 bushels, compared with 24.5, the five-year average.

Rye—June 1 condition, 85.6, compared with 90.2, the ten-year average; indicated yield per acre, 16.1 bushels, compared with 16.4, the five-year average.

Hay—June 1 condition, 87.5, compared with 86.1 in 1910.

Pastures—June 1 condition, 98.1, compared with 99.1, the ten-year average.

the ten-year average condition on June 1 follows:
Virginia—Acreage, 2.6; June 1, 81; ten-year average, 88. North Carolina—Acreage, 2.2; June 1, 89; ten-year average, 84. South Carolina—Acreage, 1.6; June 1, 85; ten-year average, 80.

DECLARES ALVAH MARTIN COULD BE PROSECUTED

Norfolk Attorney Accuses Clerk of Wrongfully Obtaining Money From County.

[Special to The Times-Dispatch.] Norfolk, Va., June 8.—In a speech at a barbecue and rally of Norfolk county tonight Democrats at Hickory grounds to-day, James E. Heath, an attorney of this city, made the assertion that the clerk of the court, Alva H. Martin, who is also Republican national committeeman from Virginia, could be prosecuted in the criminal courts for wrongfully obtaining money from the county treasury.

Mr. Heath claimed the clerk was allowed \$500 for making out the capitation tax lists, when the law would only allow him \$90.30. Mr. Heath quoted from the Supreme Court decision in the Black case from Rockingham county, handed down last December. It was also charged by Mr. Heath that Mr. Martin collected more than the law allows for indexing deed books.

GRIEVANCES SETTLED.

Harmonious Meeting Between Representatives of Federation and N. & W. [Special to The Times-Dispatch.]

Roanoke, Va., June 8.—The meeting which has been on for the past two or three days between representatives of the federated trades and Superintendents of the Norfolk and Western shops, came to an end to-day, and the men who represented the nine different organizations included in the federation, declared that the meeting was perfectly harmonious, and they received the very best of treatment at the hands of the authorities. All grievances were amicably disposed of with the exception of the wage scale, and that was in no way discussed by the committee or Mr. Lewis. That matter has been left to the presidents of the international federations, or to high officers whom they may designate to act for them, and the matter finally will be disposed of on June 27.

WORTH WEIGHT IN SOLID GOLD

At Present Market Value, This Would Make Each Bottle of Cardui Worth Over Four Hundred Dollars.

Abingdon, Va.—A lady from this place, who signs herself "a faithful friend"—viz., Mrs. Jennie McCall—says in a recent enthusiastic letter: "Cardui is worth its weight in gold."

This is rather a high estimate on a plain herb medicine, yet there are thousands of women who would gladly pay four hundred dollars a bottle for a remedy or treatment that would cure their suffering.

All such ladies, and others, who haven't the four hundred, but would gladly learn of any successful treatment, within their means, are invited to read the rest of Mrs. McCall's letter, which is as follows:

"I had been troubled with female complaints for over ten years. I could not walk or stand on my feet, and had almost been confined to the house for a long time, when I began to take Cardui and the woman's tonic."

TRADE REPORT

Bradstreet's to-morrow will say for Richmond and vicinity:

Trade conditions generally are irregular; however, improvement in some lines is noted. The long drought, which had so retarded crops throughout the district, has been broken by rain, and improvement in crops is reported. Reports of the cotton crop from North Carolina are more favorable. However, curtailment in production by the mills still continues. Peanuts show advance in prices, the 1910 crop being well used up. The usual between-season dullness is noted in the wholesale dry goods and shoe market. However, fair filling-in orders are reported. Demand for other than hardwood lumber is poor, and many mills are curtailing. Drugs, chemicals and fountain supplies are active. Distillers and blenders of liquors report a falling off in orders. Provisions are in fair demand, buying being stimulated by the reduced prices of some commodities. Vegetables are generally late and inferior. Retail trade shows some improvement. Collections are slow.

Held Under \$2,000 Bond.
Raleigh, N. C., June 8.—H. W. Montague, who last Sunday night shot and

killed J. B. Robertson near Eagle Rock, has been held for the court on \$2,000 bond, as the result of the preliminary hearing here to-day. The killing came over a dispute as to remarks alleged to have been made by Montague about Robertson's sister, Robertson shooting first. All the parties are prominent in farm life in the county.
